To Whom It May Concern:

I have worked with Northeast Energy Partners for a number of years now and have found them to be very helpful and knowledgeable in the energy industry. I have found that they have extensive knowledge of the current marketplace and continually interact with me on an ongoing basis.

I feel that I can call them with any questions or concerns and feel confident that I will get an informative answer in a timely manner.

They have approached me with creative ways to handle both my natural gas and electricity needs, and I look forward to working with NEP for a very long time.

Sincerely,

A handwritten signature in black ink, appearing to read "Rick Nadeau", written in a cursive style.

Rick Nadeau
