Northeast Energy Partners LLC
111A West Dudley Town Rd
Bloomfield CT 06002

Brian,

I wanted to take a moment to thank you and Northeast Energy Partners for your ongoing support and management of Plastic Packaging's electricity needs. You made us aware of a great market opportunity and we were able to capitalize on it.

With our original fixed contract going through December 2008, you proposed a "Blend & Extend" option that will not only save our company a significant amount of money over the balance of the original term, but also extended our contract out another three years at a rate nearly a penny lower than what we had previously been paying. We are very pleased with NEP's dedication to our business.

Thank You,

Ed Kaplan
